Beyond the ordinary café

Founded in 1978, the first Au Bon Pain was nothing more than a small urban café selling the freshest baguettes and croissants in downtown Boston. Today, that passion for excellence has made us one of the fastest growing café chains in the world.

Everything we do at Au Bon Pain is beyond the ordinary.

It shows in our food, where our internationally renowned executive chef Thomas John has created a menu full of delightful flavor, spice and taste combinations.

It shows in our hospitality, and how we treat each and every customer like our invited guest.

It shows in our environment, whether it's the open market atmosphere of our urban cafés or the warm and welcoming design of our new suburban restaurants.

It shows in our focus on nutrition, and our commitment to providing a variety of lower sodium, lower calorie, higher protein, vegetarian and zero grams trans fat menu offerings.

Au Bon Pain is an experience beyond the ordinary. And one we hope you will thoroughly enjoy.

The majority of our baked goods and sandwiches have zero grams of trans fat. Please visit our website or nutrition kiosks for more details.
